

Bayside HVAC Products LLC

Manufacturers' Representative • Serving Northern California and Northern Nevada since 1992

Air Monitor Airflow & Pressure Measurement

"Accurate, reliable and repeatable air flow measurement."

- Innovative Outside Air Measurement solution.
- Electronic & Pitot Flow Probes & Stations.
- All custom configured and calibrated.

MSA Gas Detection Products

"A passion for safety."

- Refrigerant Leak Detection, color touch screen w/ 20 gasses.
 - Combine with Bayside's RAS Alarm Components.
- Garage Ventilation Control (CO and NO2).
- Toxic, Corrosive & Combustible Gas Detection.
- Industrial grade products w/ smartphone app interface.

Onicon Fluid Flow & BTU Meters

"Industrial quality and accuracy for HVAC applications."

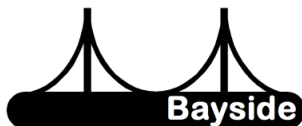

- Water, steam, natural gas & BTU meters.
- BTU Meters with network interface (BACnet, LON, Modbus).
- Compact in-line BTU meters for sub-metering.
- Natural Gas flow – monitor energy use and distribution.
- All meters custom configured and calibrated.

TSI Laboratory & Hospital Controls

"Control & Monitoring products that are key to occupant safety"

- Fume Hood Face Velocity Controls.
- Lab Room Pressure Controls.
- Hospital Isolation Room & Pharmacy Controls.
- Particle Counters, hand held instruments.
- Venturi air valves, control dampers.
- Network compatibility (BACnet, LON, Modbus)

Bayside HVAC Products – Value Added Services

Construction Phase

- Design and Specification
- Training & Startup Assistance
- System Integration, Project Management

Post Construction

- System Certification
- Repair and Tune up
